

GROW

Building a profitable aesthetics practice is an art form.

It takes the right equipment along with the support of a company who knows your mission and has the tools to help you succeed.

Let Parisian Peel help you build the foundation for success with the leading medical microdermabrasion equipment, the right skin care products, a complete marketing program and on-going support.

You will create your greatest body of work.

FEATURES AND BENEFITS:

- **Triple HEPA Air Filtration.** Integrated air filtration for a clean treatment environment.
- **Ergonomic Handpiece.** Unique design with flexible tubing provides safe, comfortable handling during hours of precision treatment.
- **Full Abrasion Power.** Maximum versatility to treat full range of superficial to deeper skin damage on the face, hands, and neck.
- **Vacuum-Only Capability.** Delivers vacuum without crystal flow to clean and stimulate skin.
- **Proprietary Crystal Flow System.** Anti-clog design combines dehumidification with system pressurization for problem-free operation.
- **Fingertip Compression Control.** Simple hand-piece control boosts skin abrasion quickly without need to search for a foot switch.
- **Self-Contained, Disposable Waste Canister.** Removes and seals quickly for safe, simple waste disposal.
